Clarity Pro 27" UHD 4K Monitor

A Stunning 4K Monitor with Smart Webcam

Clarity Pro is an exceptional display for digital artists who require confidence in their work. This studio-quality, 27" 4K display presents your work in perfect colour, while its smart 8MP webcam ensures you're always looking your best. Its USB hub lets you declutter your studio and connect to your entire workstation with one cable, leaving your focus for what truly matters: your next masterpiece.

A Stunning Digital Canvas.

Exhibit your craft like never before with more than one billion colours across Clarity Pro's breathtaking 27" 4K screen. Its exceptional colour gamut, vivid 350 cd/m² brightness and sharp HDR contrasts make it a powerful tool you can stake your creative reputation on.

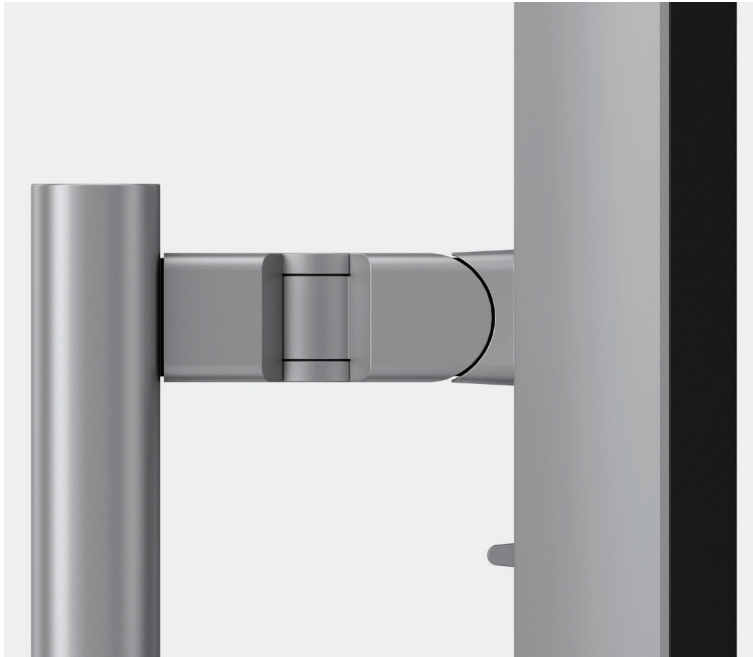

8MP Auto-Retracting Webcam

With Clarity Pro, you'll look stunning, but only when you want to. Our smart webcam automatically sides up when you need it and disappears when you don't, keeping the lens clean and protecting your privacy.

Power, Data, Video all at once

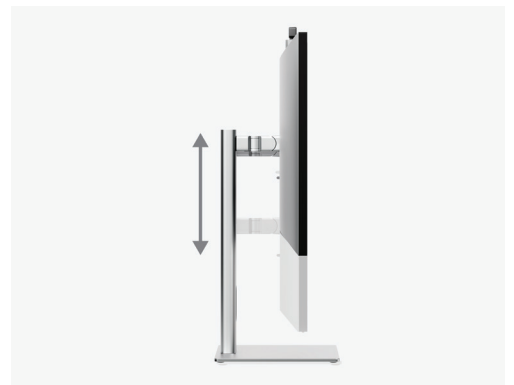

Get up to 65W power delivery (for charging your laptop via USB-C) and enjoy uninterrupted productivity with a single cable that transmits power, data and video - all at once.

Pivot, Tilt, Swivel

Adjustable stand

Our aluminium stand makes it easy to position Clarity Pro exactly where you need it, letting you raise, pivot, tilt and swivel the display for ergonomic comfort. Combined with its generous 178° viewing angle, Clarity Pro is a versatile inclusion in any workstation.

Landscape or Portrait

switch in seconds

With Clarity Pro's smart rotation sensor, it takes just seconds to switch from landscape to portrait, perfect for editing vertical video, answering emails or monitoring a livestream. When you're done, switching back is just as easy.
